New aHSCT Webpage for People with MS

The National MS Society has created a webpage describing optimal use of aHSCT in MS based on our recommendations paper. AHSCT is a good treatment option for some people with aggressive relapsing-remitting MS who have not benefitted from disease modifying therapies (DMTs).

COVID-19 Resources for Patients and Providers

The National MS Society encourages providers and their patients to review and discuss the following resources when considering COVID-19 vaccination:
Health Insurance Open Enrollment

Fall is open enrollment season for Medicare and the Health Insurance Marketplace. MS Navigators can review health insurance plan options including medication coverage — encourage your patients to schedule speaking with an MS Navigator today.
